Why AVSI?

AVSI specializes in Efficient Engineering™ which describes the methods, processes, and best practices that ensure the success of technical projects. Our focus-driven, flexible approach encourages both organizational growth and efficiencies. We work with our customers, providing high-quality, and reliable alternatives for all their Systems Engineering and Technical Assistance (SETA) requirements. We are there for our customers at all stages of their projects. Our focused attention on quality and customer support makes AVSI the repeated choice for all of our customers.

About AVSI

Established in 2004, Advanced Vision Systems Inc. services high-tech firms in need of engineering and technical support services expertise. AVSI's proven track record includes a 100% "repeat-customer" rating. AVSI serves both commercial clients and local, state and federal government agencies.
